MORMON EXHIBIT AT SEATTLE EXPOSITION Arrangements are now being made by the first presidency of the Mormon church for an exhibit to be placed in the government building at the Alaska-Yukon-Pacific exposition at Seattle next summer, representing the influence of the "Mormon" emigration on the development of the west. The exhibit is to be made at the instance of the United States government through the Smithsonian institution.

The exhibit will include a plaster cast of the Salt Lake temple and tabernacle, the tabernacle being built so that it can be divided into two sections, to show the interior construction. Numerous features of the movement to the west will be shown, as well as something of the spread of Mormon colonization to different sections of the United States and Canada.

The preparation of the exhibit is being carried on under charge of the following committee: Orson F. Whitney, chairman; Spencer Clawson, Mrs. Emeline B. Wells, Andrew Jensen, Professor Cummings and George D. Pyper, secretary and treasurer.

ADMIRAL EVANS WILL LECTURE HERE APRIL 3 The visit of "Fighting Bob" Evans to this city during the early part of April, in his tour of the country and the auspices of the U. S. Admiral Evans received his appointment to Annapolis from Utah, and is hence considered to belong to this state. The list of the high school cadets to San Francisco last summer to act as his personal bodyguard will also be remembered as one of the pretty incidents of the entertainment of the officers and crews of the great Atlantic fleet in that city, and it is expected that the visit here of Admiral Evans will attract more than passing attention from the citizens of the city and the state.

IMPORTANT REALTY DEAL CONSUMMATED

George T. Odell Purchases Corner at First South and Fourth East.

Probably the largest and one of the most important real estate deals transacted during the past week was reported Saturday from the office of Meeks & McCartney, realty dealers, with the purchase of a tract ten rods square at the corner of First South and Fourth East, by George T. Odell, manager of the Consolidated Wagon and Machine company, for eastern parties. The consideration was \$30,000.

The property occupies the northwest corner of the intersection and faces south and east. It is diagonally opposite the First Congregational church, and is considered one of the most important properties in that section. The property will be improved immediately, and the whole locality made out up into building lots, new residences erected, and the whole locality made into one of the finest residence localities in the city.

The price, more than \$180 per front foot, is considered good for that locality, and the purchase of the property is regarded by real estate men as the beginning of improvements which will be made to a number of large tracts along First South and the south side of South Temple, which have been held for some time by many speculators. The rapid spreading out of the residence portion of the city is making this property too valuable to hold, it is said, and further large transactions of this kind may be looked for during the coming season.

HOW I MADE MY HAIR GROW

Woman with Marvelously Beautiful Hair Gives Simple Home Prescription Which She Used with Most Remarkable Results.

I was greatly troubled with dandruff and falling hair. I tried many advertised hair preparations and various prescriptions, but they all signally failed; many of them made my hair greasy, so it was impossible to comb it or do it up properly. I think that many of the things I tried were positively injurious, and from my own experience I can not too strongly caution you against using preparations containing wood alcohol and other poisonous substances. I believe they injure the roots of the hair. After my long list of failures I finally found a simple prescription which I used with most remarkable results, and I can unhesitatingly state that it is beyond doubt the most wonderful thing for the hair I have ever seen. Many of my friends have also used it and obtained wonderful effects therefrom. It not only is a powerful stimulant to the growth of the hair, and for restoring gray hair to its natural color, but it is equally good for removing dandruff, giving the hair life and brilliancy, and during that time it not only stopped the falling of his hair and wonderfully increased its growth, but it practically restored all his gray hair to its natural color. You can obtain my prescription for making the wonderful preparation from almost any druggist. The prescription is as follows: Bay rum, 6 ozs.; Menthol crystals, one-half drachm; Lavona de Compose, 2 ozs.; To-Kalon perfume, 1 to 2 teaspoonfuls. Apply night and morning; rub thoroughly into the scalp.

Go to your druggist and ask for an eight-ounce bottle containing six ounces of bay rum; also one-half drachm of Menthol crystals, and for a two-ounce bottle of Lavona de Compose. Mix the ingredients yourself in your own home. Add the Menthol crystals to the bay rum and then pour Lavona de Compose and add the To-Kalon perfume. Let it stand for one-half hour and it is ready for use.

GIVEN BIG SUM FOR LOSS OF HIS VOICE

Union Pacific Must Pay Albert S. Johnson of Rhode Island \$16,500.

Sixteen thousand five hundred dollars for a voice! This is the price that the Union Pacific Railway company will have to pay Alfred S. Johnson, an attorney from Providence, R. I., for the loss of his voice through an accident on the defendant company's lines between Kansas City and Denver, September 19, 1907. The supreme court Saturday affirmed the judgment for that amount of the third district court against the railway company.

Johnson, with fifty-six others, left Providence on August 30, 1907, for an excursion trip to San Francisco and other western points and return, making the entire trip in two Pullman cars. Between Denver and Kansas City, on the return trip, the Pullmans were derailed and Johnson was badly hurt, particularly about the throat, which was paralyzed to the extent that he lost his speech.

Johnson sued the railway company in the third district court for \$50,000, and in Judge Lewis's division on November 4, 1907, was given a judgment for \$16,500. The railway company appealed on a general assignment of errors, but the supreme court, in the opinion handed down Saturday, denies the appeal. The opinion is written by Justice W. M. McClarty and concurred in by the other justices.

Johnson, who was 39 years old, set out in his complaint that he was a practicing lawyer, and that by reason of the loss of his voice his profession was also lost to him. His earnings as an attorney ranged from \$7500 to \$9500 a year, he set out.

Colonial Supers Are Out on Strike

According to the statements of six young men, the Saturday night performance of the play, "The Rose of the Rancho," which has been staged at the Colonial theater the past week, was terribly "punk." There is a reason. They were not numbered among the "supers" in the play, and they were not in the play, appearing before the footlights every time a gang was needed to make the scene complete.

Saturday afternoon when they went for their pay the management allowed them but 50 cents a performance. The strikers sent a round robin to Willard Mack, informing him that they had only received 50 cents a performance when they should have received a dollar. Mr. Mack made reply that they must settle with the management. Joseph Lievre was spokesman for the strikers and he says that his fellows are not half as "sure" at the theater management as at the four boys who refused to strike, terming them quitters.

GROWS HAIR and we can PROVE IT!

Beautiful Hair at Small Cost. I troubles, like many other diseases, have been wrongly diagnosed and altogether misunderstood. The hair itself is not the thing to be feared, for it is simply a product of the scalp and wholly dependent upon its action. It is the very soil in which the hair is produced and grown, and it alone should attract the attention if results are to be expected. It is no earthly good to treat the stem of a hair with a view of making it grow and become luxuriant, if the soil in which the plant grows must receive the attention if you are to have it to grow and become beautiful. The natural thing to do in either case, is to feed the soil or scalp as the case may be, and it will grow and multiply as nature intended it should. Dandergine has a most wonderful effect upon the hair glands and tissues of the scalp. It is the only remedy for the hair ever used that is similar to the natural hair oils of the scalp. It penetrates the pores quickly and the hair grows the effects of its wonderfully exhilarating life-producing qualities. A 25-cent bottle is enough to convince you of its worth as a hair remedy. Send for your beauty remedy—try it and see for yourself. At all drug stores in three sizes, 50c and \$1.00 per bottle. FREE To show how quickly Dandergine acts, we will send a large sample free by return mail to anyone who sends this free coupon to the KNOWLTON DANDERGINE CO., CHICAGO, ILL., with their name and address and 10c in silver or stamps to pay postage.

The Most Important Item of the first meal of the day is coffee. Are you getting the best in the market for the money?
